GROHE
ENJOY WATER®

GROHE Ondus® Digital faucets featured in the luxury Drettmann Yacht

LUXURY FAUCETS AND FITTINGS YOU CAN DEPEND UPON

Unrivalled comfort for your passengers. Peace-of-mind for you. GROHE sanitary fittings offer a range of water and energy efficient solutions that enable you to create luxurious en-suite bathrooms, while reducing your running costs.

From new builds to refurbishment and single product replacement, we offer an extensive range of fittings suitable for all areas of your ship. Luxurious all-enveloping head showers, precision-engineered thermostats packed with a host of safety features, and state-of-the-art infrared electronic faucets – whatever your preferred interior style or budget, we have the solution.

We've built our reputation on quality and performance. Our products are designed and engineered in Germany to meet the highest international standards and to perform under the toughest conditions. And we've won numerous awards for our innovative designs too. In fact, our water-saving Rainshower® Icon hand shower is our most-awarded design. Proof that there's no need to compromise on design when choosing water and energy efficient sanitary fittings.

GROHE is the proud supplier of sanitary fittings to the following companies:
AIDA Cruises • Celebrity Cruises • Disney Cruises • MSC Cruises • Princess Cruises • Norwegian Cruise Line

PASSENGER COMFORT IS YOUR PRIORITY. IT'S OURS TOO.

GROHE faucets and fittings are designed to be intuitive to use and deliver maximum user comfort. From the most luxurious suites and spa facilities to crew areas and restrooms we offer a range of products to complement all areas onboard your ship.

GROHE EcoJoy™

GROHE EcoJoy™ is a complete range of faucets, thermostatic mixers and showers that deliver a luxurious experience, while using less water and energy. Each one exploits the potential of every single drop of water to ensure an unrivalled bathing experience for your passengers.

GROHE SilkMove®

Single lever faucets feature GROHE SilkMove® for impeccably smooth handling, thanks to our high-quality cartridges.

GROHE DreamSpray®

Everyone can wake up with the perfect shower. GROHE DreamSpray® technology ensures balanced water distribution for a luxurious showering experience.

GROHE TurboStat®

For a safe and comfortable shower at the perfect temperature choose a thermostatic mixer with GROHE TurboStat® technology. Should there be a change in the temperature or pressure of the water supply, the thermostat will respond within a fraction of a second.

LESS WATER. MORE ENJOYMENT.

Your passengers expect a certain level of comfort in the shower and when using the basin. But you want to keep water consumption as low as possible. You might think that it's a bit like trying to mix oil and water. But it's not. The GROHE EcoJoy™ range of water saving solutions include:

- Basin faucets with a flow restricting mousseur, so they'll never use more than 5.8 l/min.
- GROHE EcoJoy™ hand and head showers feature a restricted flow of either 5.8 or 9.4 l/min. Several models offer additional features such as EcoButtons and Spray Dimmers.
- Shower thermostats feature an EcoButton to reduce the flow by up to 50%.
- Infrared electronic faucets help reduce the chance of bacteria transfer and also ensure water only runs when it's needed, while our self-closing shower faucets are ideal for poolside showers.

KEEPING THINGS SIMPLE. AT ALL YOUR PORTS OF CALL.

We operate in 170 countries, so no matter where in the world you are, you're never far from a GROHE project specialist.

- Our global project team includes several experts who understand the unique needs of the cruise ship industry.
- Our service, short delivery lead-times and continuous support will exceed your expectations.
- We offer on-board installation and maintenance training during the interior fit out of your ship.
- From higher faucet bodies to a different surface finish, GROHE Project + is an additional service that enables you to customize our products to meet your on-board requirements. If you have something specific in mind, don't be afraid to ask.
- Fast to install, easy to clean and effortless to maintain. From product installation to daily care and maintenance we've made things as simple as possible – saving time during the interior fit-out of your ship and precious minutes every day for your housekeeping crew.

GROHE StarLight®

GROHE StarLight®, our deep chrome finish, resists dirt and tarnishing to retain its pristine, luminous sparkle.

GROHE QuickFix®

Basin faucets featuring GROHE QuickFix® or GROHE QuickFix® Plus reduce installation time by up to 50%.

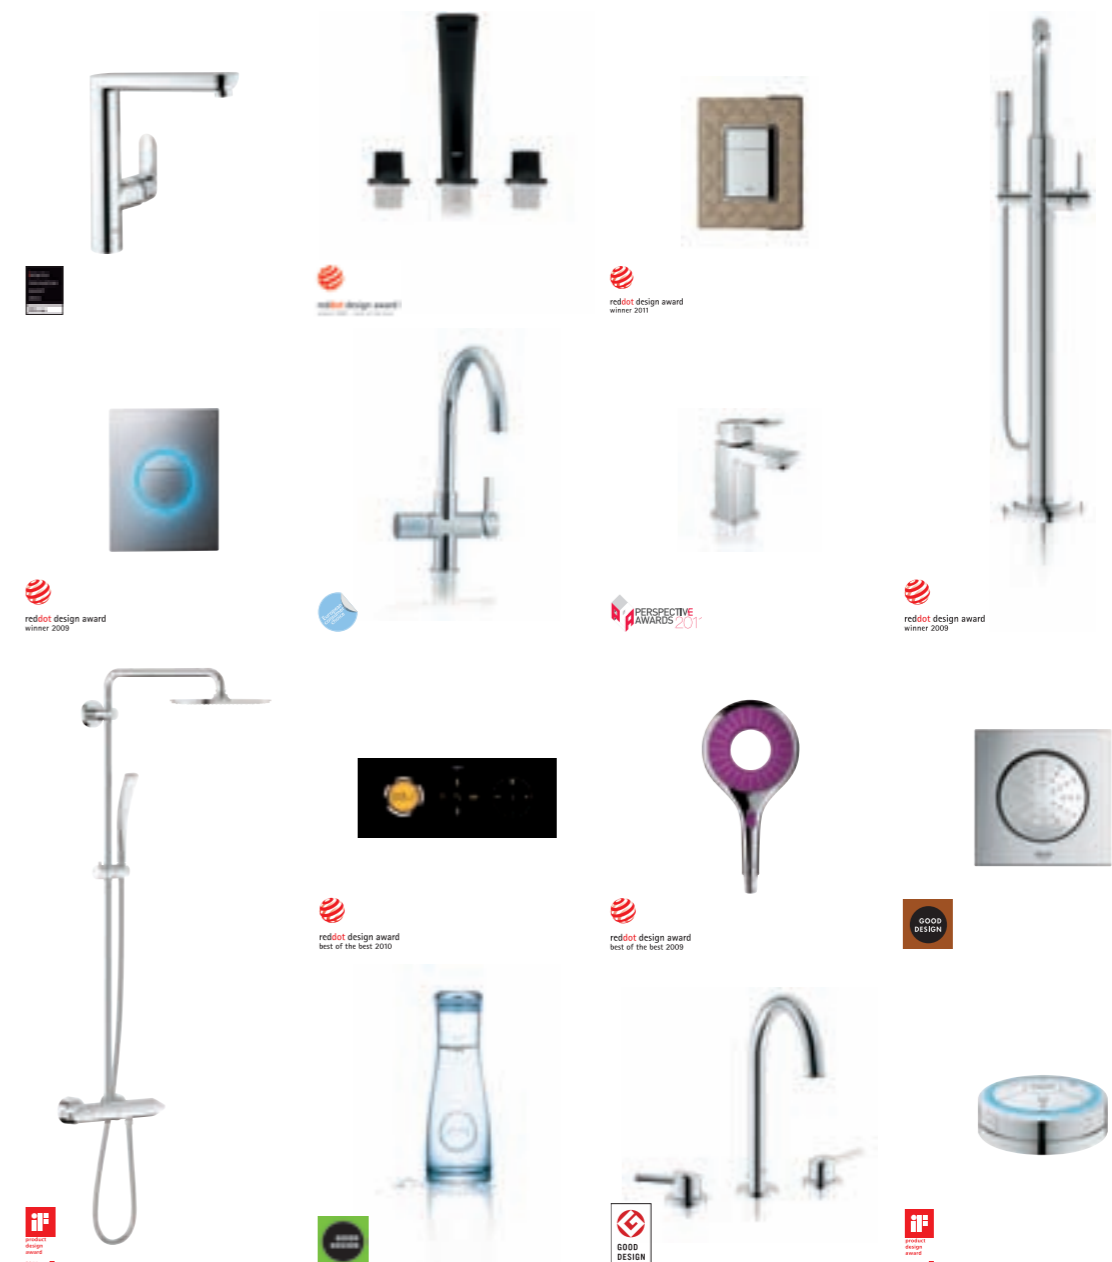

Shower rails also feature GROHE QuickFix®. This flexible fixing system enables you to quickly replace any shower rail with a GROHE rail without having to drill additional holes to fix the wall brackets.

Uniform spare parts facilitate maintenance and replacement – reducing the required number of parts you need to carry.

A REPUTATION BUILT ON QUALITY AND INNOVATION.

Designed and engineered in Germany, our faucets and fittings combine award-winning design with the latest technologies and the finest materials. The result is a range of products that will add visual appeal to your cabin bathrooms, while ensuring peace of mind for your maintenance crew.

- Our life-testing laboratory pushes our faucets and fittings to the limit. GROHE endurance testing goes way beyond the industry norm.
- All of our products meet the toughest international legislations.
- Manufacturing at GROHE is aligned with ISO certification 14001: 2004.
- In 2011, our in-house design team led by Paul Flowers was presented with the most prestigious accolade in the field of product design: the red dot 'design team of the year' award.
